

The New **BLADEM** Frame

10X
the rigidity

- Extruded Aluminum
- An Inch Thinner
- Alignment Pins
- Made at Cirrus

This is big! Cirrus has made a monumental improvement to its framing system. Our new frames are made out of a honeycombed extruded aluminum that provides 10X the rigidity over our previous model.

Ultra-precise alignment, while being an inch thinner makes this modular framing system the most advanced in the market. Our frames are now made at Cirrus with our massive CNC robot and can come assembled in 2x4 sections for quicker assembly.

DIMENSIONS with LED MODULE

WIDTH - 24" HEIGHT - 12"
TOTAL DEPTH - 4 1/8" LED PANEL DEPTH - 7/8"
TOTAL WEIGHT - 9.82 lb PANEL WEIGHT - 6.12 lb

OUR NEW FRAMES COME WITH ALIGNMENT PINS, 2 PER EDGE FOR THE ULTIMATE PRECISION
